SpecPro Environmental Services LLC (SES) is an environmental and construction services firm headquartered in Oak Ridge, Tennessee, and has extensive experience in Federal Government contracting, especially IDIQ, fixed-price, task order contracts. SES's primary expertise lies in construction and environmental services, particularly with projects that are especially challenging. The company has a core of management, technical, and support personnel who have worked together for many years, and are skilled in the execution of task order contracts that may have multiple vendors and subcontractors in geographically diverse locations.

SES
Construction and
Fuel Services LLC

SES's sister company, SES Construction and Fuel Services LLC (SCF), is a wholly owned subsidiary of Bristol Bay Native Corporation and a participant in the U.S. Small Business Administration's 8(a) program. SCF specializes in general building and civil construction, fuel services, and environmental construction and remediation for government clients. The company benefits from SES's shared ownership and past performance experience, and builds on the reputation of the SES group of companies.
